

## PAPER (Glossy)

### GENERAL INFORMATION

Glossy paper is recyclable and is accepted at the Army Recycling Center (ARC).

Glossy paper and magazines can be recycled to make other paper products, saving 60% of the energy it takes to make new paper. (source: earth911.com)

### WASTE CHARACTERIZATION

Glossy paper includes brochures, catalogs and magazines. They are made of paper that has been coated. This glossy coating makes the paper good for color printing, graphics and photographs.

### HANDLING AND DISPOSAL PROCEDURES

Recycle glossy paper, brochures, catalogs and magazines. Place these items in recycling bins designated for magazine recycling. DO NOT place in white office paper bags or bins. Recycling bins can be requested by contacting the Army Recycling Center.

Drop off glossy paper/magazines at the ARC, 1087 McMahon Rd., Schofield Barracks or schedule pick-ups by calling the ARC or at <https://dpwhawaii.army.mil/PickUp>.
